Hassle-free, small batch ordering

When buying custom kit, ordering less than 25 items often comes with a penalty, but not with ProSwimwear! We're pleased to be able to offer custom swimwear options in small batches at a great price.

Once you're set up on one of our club support schemes, you are able to have your own club shop on our website.

With many of our items, your club members are able to place an order through the website directly, so you don't have to run around collecting order details, payments, placing the order, and then distributing the products. We've cut all of that work out for you.

Your club members simply place their order on the website, we collect all of your club orders over the course of a month, and we despatch them within two weeks.

For an extra charge, your club members can even expedite their order to receive their custom kit in just a few days.
